

GRANUM EXTRA

Impressive resistance.
Innovative perfection.

GRANUM EXTRA — The product line with the EXTRA.

RHEINZINK-Titanium Zinc offers the optimum solution for every building project in order to utilise a durable and timelessly beautiful material. In view of climate change and changing conditions, we at RHEINZINK are constantly optimising our surfaces to meet the demands of the future.

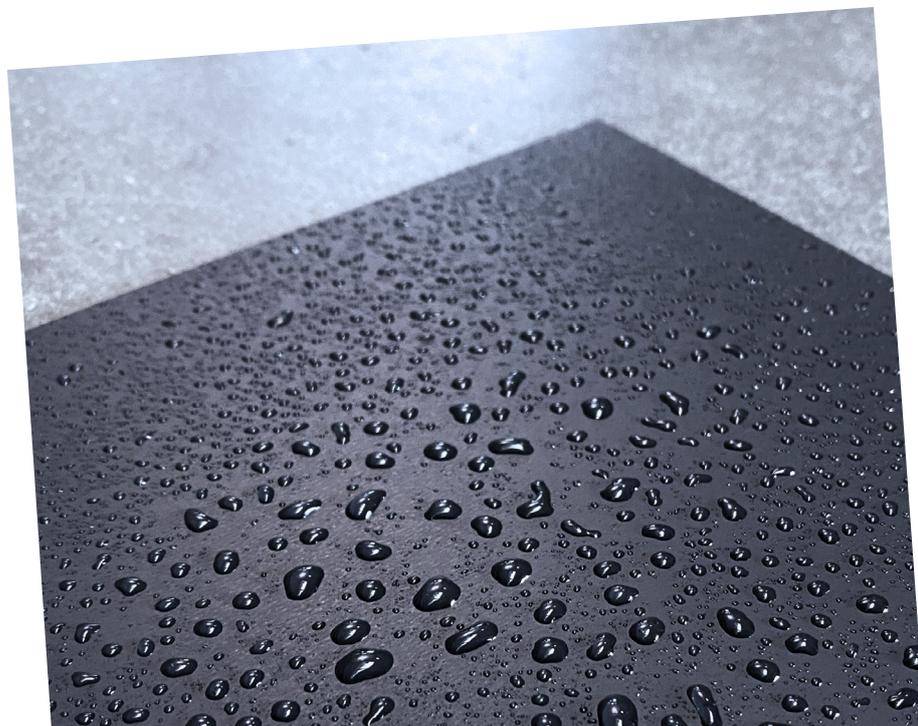

This is exactly where our innovation comes in: With the GRANUM product line, we offer a surface that gives every project a modern character thanks to its purist, clean look. On this basis, we have worked with specialists to develop GRANUM EXTRA, a high-tech surface that impresses with its excellent properties while retaining the familiar look. Through local production and adherence to the highest quality standards, we ensure that you receive a special RHEINZINK product:

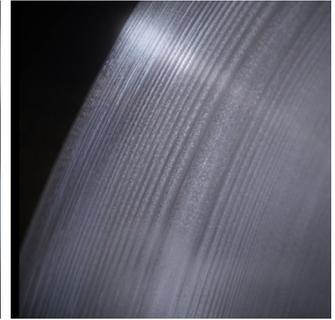

EXTRA VERSATILE.
EXTRA COLOUR-STABLE.
EXTRA CORROSION-RESISTANT.

GRANUM becomes GRANUM EXTRA.

*'Aesthetics, durability, variety - with
with GRANUM EXTRA you have the ultimate solution
for your demanding projects.'*

Ingo Krupp, Product Manager at RHEINZINK

INNOVATION MADE IN GERMANY

**State-of-the-art technology
and precise manufacturing -
Surface quality Made in Germany.**

EXTRAORDINARY COLOUR STABILITY

**Colours that inspire in the long term
and reliably endure.**

EXCELLENT CORROSION RESISTANCE

**Strong protection -
constant in volatile times.**

GRANUM EXTRA — A surface you can build on.

Our GRANUM EXTRA product line stands for an elegant, matt appearance. The surface is characterised by the innovative coating, which ensures exceptional colour stability and outstanding corrosion resistance.

GRANUM EXTRA offers weather-resistant protection for an constant aesthetic.

BASALTE AND GRANITE — Aesthetics at its best.

The purist grey tones, GRANUM basalte in the dark version and GRANUM granite in the light version, offer scope for individuality. Combinations with materials such as wood, natural stone, plaster or glass surfaces create artistic contrasts and awaken visions of urban design beyond the mainstream. GRANUM EXTRA opens up new possibilities for visual design.

Product Range

GRANUM EXTRA provides you with a wide range of products for roofing, façade cladding and roof drainage in the most common shapes and sizes. We also offer customised solutions for your projects. Discover the entire product range.

Processing

With the solvent from Felder, the two surface variants GRANUM EXTRA basalte and granite can be easily soldered to create reliable and durable connections. Further information can be found on our website.
